

Colton Picks

To The Editor:

I am excited about seeking your support for councilman in the town of Colton.

To begin with, I support Mr. Swafford as our supervisor, and he is doing a great job. Since the last election, my wife and I have undertaken the restoration of the former McKizer Hotel in South Colton.

When I sought the office of supervisor two years ago, I promised to work on restoring and beautifying our hamlets. Well, we started that task.

Councilwoman Miss Watson has been a great encouragement to us as we undertake this project. Over the years I have benefited from her knowledge of town law and grants.

If I were considering any project for our town, I would go to Supervisor Swafford and Miss Watson. They know the facts. Therefore, I am declaring my support for Mr. Swafford and Miss Watson. Failing to do this would definitely hurt our town.

We, the Republican candidates, stand for open, honest, righteous, and fair government. You will find that our concern is for restoration, revitalization, and revisioning our hamlets.

I will take to the office of councilperson my desire to serve, to listen to the people, to work to make our communities attractive and less divisive.

Talking with me you will hear my love for people, our Adirondack Mountains and our Racquette River.

I encourage you - as a member of our community - to ask, seek information, listen, evaluate as you vote to move our town of Colton forward.

Ed Wright
Candidate for
Colton Town Council
