## **Dangerous?**

To The Editor:

We were all recently "treated" to a malinformed, as usual, evisceration of The Colton Citizens Committee by a nifty act of ventriloquism. Those wanting to keep Colton citizens in the dark and return it to the old clandestine way of inept government would have you believe the Colton Citizens Committee is something scary very dangerous.

In truth, it is only dangerous to those trying to cover up facts or spread misinformation. Why not visit the web site and make up your own mind about the group...You be the judge.! It can be visited at:

[www.angelfire.com/planet/citizenscommittee/](http://www.angelfire.com/planet/citizenscommittee/)

Facts and figures are all there and archived as far back as 2006. Make up your own mind about this group instead of allowing others to dictate how you must think.

A huge thank you to Miss Murray for bringing this all up, I would have completely forgotten about the site and all had she not mentioned the Committee. The data on the site will prove a great help in letting one review all that was done against us common people in the name of the pseudo-town government we've been putting up with for years, and figure into how one casts votes in Nov.
