

Corrected

To The Editor:

I am writing this letter to correct an error I made while writing my last letter.

Richard Owens was in fact appointed to the Chair of Assessors. This was my mistake and I take full responsibility for the blunder. Believe me, I pride myself in getting all the facts straight before writing about them and have menatally flogged myself far more than anyone else possibly could.

It was actually town Republicans that first pointed out this error to me, which is pretty big on their part don't you think?

Now, if only the Ford Legacy would be as equally honest about all the things they have had in print of equally misleading nature!
